VOLUME XXXVII

PARIS, BOURBON COUNTY, KENTUCKY, FRIDAY, MARCH 29, 1918

IN THE SERVICE OF THEIR COUNTRY.

Mr. Wm. Lenihan, of Paris, who is stationed at Camp Sheridan, near Montgomery, Ala., as a member of the 149th Infantry, who has been visiting his mother and family, in this city, left yesterday for Columbus, Ohio, where he will report before returning to his duties at Camp Sheridan. He states that while all the members of his command are ready and anxious to see service overseas, there is no immediate prospect ahead for them to do so, as far as he could ascertain.

Alvin Thompson, of Paris, who is a member of the Dr. Barrow Base Hospital Unit No. 40, stationed at Camp Zachary Taylor, is at home on a furlough for a short visit to his parents, Mr. and Mrs. A. S. Thompson, near Paris. Mr. Thompson says the Paris boys are getting in good shape for active duty and are a great deal better than "rookies" now.

Mr. Jos. J. Grosche, Master of Trains for this division of the Louisville & Nashville, is in receipt of a post-card from his brother, Mr. Leo Grosche, announcing his safe arrival in France. Young Grosche is a member of the Railway Telegraphic Battalion of the American Expeditionary Force now in France. He enlisted some time ago while in the railway service at Grand Rapids, Mich.

Mr. Charles McCarthy, of the E. F. Spears & Sons' office force, is a real patriot. Mr. McCarthy, as a member of the second draft call, would likely not have been called to duty before next June or later, but decided not to wait, and applied to the local Exemption Board for permission to enlist voluntarily. This was granted. Mr. McCarthy is now at Camp Zachary Taylor, where he will go in training at once. Of this stuff are heroes made!

Dr. Edward C. Barlow, of Georgetown, well-known in Paris, has received his commission as a captain in the medical department of the army, and is awaiting orders from the Government to leave for the service. He is one of Georgetown's most prominent physicians, and comes from a long line of medical men. He served in the Hospital Corps in the Spanish-American war.

A letter from Mr. Barney Gartland, formerly of Stony Point, this county, to his parents, Mr. and Mrs. James Gartland, tells of his safe arrival at a foreign port. He told of the splendid work being done by the Y. M. C. A. In describing his trip overseas, he told of an encounter with a submarine, but the details of the attack were cut out by the military censor.

A number of troop trains have passed through Paris recently, bound for ports of embarkment or some concentration camp, their destinations being unknown and carefully guarded. One of these passed through over the Louisville & Nashville, Tuesday afternoon. Over 1,700 members of the draft army from Camp Zachary Taylor have been sent to other points, among them being Edgar Dodge, Webster Harp and Joseph Mitchell, of Paris, and Jas. Collier, of Millersburg.

Two more "boys" from Bourbon will be added to the naval service soon, if they succeed in passing the required physical tests for examination. Charles Tackett, for some time with the L. & N., and later with N. A. Moore & Co., and Clifton Arnsperger, son of Mrs. Ruby Arnsperger, who is connected with the C. B. Mitchell establishment, will leave Monday for Ft. Thomas, where they will seek enlistment in the Coast Artillery branch of the service.

Mr. John (Pete) Cain, of Paris, received a letter recently from his son, Private James E. Cain, who is "somewhere in France." The letter was a brief one, the writer stating that he was in camp with a company of Alabama boys, and was in first-class health and in good spirits. He stated that the weather was cold, just like Kentucky in February, but they were kept hustling in camp so they didn't mind it.

The old Fourth Ohio Regiment has been under fire in France. It is a part of the 166th Infantry, a unit of the Rainbow Division, which left for foreign service in September. Lieut. Reuben B. Hutchcraft, Jr., of Paris, is in the 166th Infantry, but no news has been received from him lately, owing to the strict censorship. The last letter his parents received from him, some three weeks ago, stated that he and his "boys" were well, and in high spirits.

COUNTY JUDGE BATTERTON SETS NEW PRECEDENT.

County Judge George Battersett set a new precedent to be followed in the future, when, in the County Court, he ordered six quarts of whiskey, which had been taken from a convicted "bootlegger," to be turned into the Massie Memorial Hospital for medical purposes.

It has hitherto been the custom for officials to empty the booze into the sewers after having been confiscated, but Judge Battersett, after mature consideration, decided to have it sent to the Hospital, to be used there for the benefit of sick patients. He stated that he saw no reason, under the law, why he should not put the wet goods to a good use by sending it to the aid of patients at the institution, as the management had to purchase the liquor for use of the patients there, anyway.

TOBACCO SEASON CLOSED WITH SALES WEDNESDAY.

Wednesday witnessed the closing of the sales season on the Paris tobacco market, when the New Independent Warehouse Co. disposed of a total of 24,120 pounds, for an average of \$35.01. The sales for the season of 1917-1918 brought a fine total of 3,385,545 pounds, which brought in a total of \$1,002,237.65, and making the season average of \$29.61. For the same time last season the sales reached a total of 2,154,690 pounds disposed of for the sum of \$395,672, an average of \$18.36. The sales for the present year exceeded those of the past season by about 1,230,855 pounds, with a difference of about \$11.25 in the season's average.

Some of the best averages in the crop sales at Wednesday's sales at this house were as follows:

Lyons & Ewalt, 2,675 pounds; average \$30.13.

Jacoby & Gray, 3,830 pounds; average \$36.29.

Marsh & McCord, 7,925 pounds; average \$40.69.

W. H. Whaley, 3,270 pounds; average \$40.67.

Keller & Taylor, 3,585 pounds; average \$28.28.

D. W. Peed, 330 pounds; average \$45.72.

On Wednesday the Bourbon Tobacco Warehouse Company sold a total of 26,072 pounds of tobacco for an average of \$34.32. For the entire season this house sold a total of 6,170,025 pounds for a total money value of \$1,785,917.39, or a season average of \$28.93. In the 1916-1917 season they sold a total of 6,141,645 pounds for a total of \$1,110,631.89, or a season average of \$18.36.

Taking these figures as a basis the Paris market has disposed of a grand total of 9,555,570 pounds of tobacco in the 1917-1918 season, compared to a grand total of 8,196,335 pounds for the previous season, the figures representing a money value of \$2,288,155.04.

One of the features of the market was the fact that Mr. Wm. H. Whaley sold three crop lots at the Independent House at different times, each crop averaging \$40.67.

CHILDREN DESTROY FLOWERS AND SHRUBS ON LAWNS.

The police have received several complaints from Paris housekeepers and property-owners regarding the ruthless destruction of flowers and shrubbery on their lawns, presumably done by school children on their way to and from school.

One of the complainants, who has been an invalid for several years, has taken an especial pleasure in her flowering shrubs and plants. She stated that she was shocked a few mornings ago to find that vandal hands had utterly ruined the flowers which had been her delight and pleasure, and which she had tended with loving care. It seems to be one of the greatest temptations to heedless youth to mutilate and destroy what cannot be replaced. The matter will be looked into by the police, who will take care that any offender caught in the act will not be likely to repeat it again.

NOTICE TO CONSUMERS.

To Our Electrical Consumers:—On account of the high cost of everything at this time, we are forced to ask our patrons who use electric current to share with us a part of the great war burden.

On April 1st we will reduce discounts from 1c per K. W. H. to ½c per K. W. H. and readjust the rate schedule for electric lighting as to the quantity used, but we will not raise the unit price per Kilowatt in any case. These advances will be so slight that we feel assured that our patrons will cheerfully aid us in tiding over the period of high costs incident to the war and until normal conditions are again restored.

Elsewhere in to-day's paper will be found a copy of the new rate schedules which will be applied on April bills.

Assuring you of our regret that this has become necessary to prevent losses that would impair service and threaten the existence of the Company, we remain as ever—"always ready to serve."

Yours truly,

C. L. STEENBERGEN,

Manager Paris Gas & Electric Co.

HURT IN RUNAWAY.

Mr. Grover Butler was painfully, but not seriously hurt Wednesday, when a young horse he was driving, ran away. Mr. Butler was thrown from the buggy, striking the ground with great force. He was removed to his home and given medical attention.

DRAFTED MEN TO LEAVE PARIS MONDAY.

Monday morning will witness the entrainment here of the fifty-three colored men who were selected under the provisions of the selective draft law, to go to Camp Zachary Taylor from Bourbon county, as members of the second draft quota from the county.

The men will report to the Bourbon County Board of Exemption, composed of County Clerk Pearce Paton, Judge Chas. A. McMillan and Dr. Silas Evans, at their headquarters in the court house at three o'clock, Sunday afternoon. They will then receive their final instructions and will be placed in charge of one of their number, who will be designated as Captain. They will be in his charge until they reach Camp Taylor, where they will be taken in charge by the military authorities, and assigned to quarters and military duties. The men will be supplied with cigarettes, tobacco and toilet necessities from a fund collected by the people of Bourbon county for the purpose.

The men were given a reception and farewell supper at St. Paul's M. E. church, Tuesday night, by the members of the congregation. They were served ice cream and cakes, and each presented with an appropriate remembrance. A musical program was rendered, and an eloquent address delivered by the pastor, Rev. T. L. Ferguson.

As "the colored troops fought nobly" at the battle of San Juan Hill and saved the day for Col. Roosevelt, so will the colored men of Bourbon county fulfill a patriotic duty when they get into action. On the firing line, after long months of the requisite training and discipline in camp life, they will be heard from as good soldiers in defense of America.

The men who will leave Monday are:

CLERK PATON'S JOKE.

The Cumberland Telephone Co. has been erecting several large poles on Main street, to replace the old ones that have done duty so long. One of the big poles, about sixty feet in length, was resting on a truck in front of the court house, awaiting erection in front of the A. J. Winters & Co. store.

The big pole bore a striking resemblance in the position in which it had been placed, to one of the big modern 14-in. guns that are now doing duty in France.

County Clerk Pearce Paton conceived the idea of giving some official significance to the "gun" and prepared a placard, which he placed on the pole. The placard, which occasioned a great deal of comment, read as follows:

"This is the big gun that has been bombarding Paris at long range. Captured in France by Private James E. Cain, of Paris, (Ky.), a member of the American Army."

NOTED ORATORS ADDRESS A LARGE AUDIENCE AT GRAND

There was an outpouring of Paris and Bourbon county people yesterday afternoon at the Paris Grand Opera House to hear Dr. Lyman Abbott, editor of The Outlook, and Dr. Ernest Powell, who came here under the auspices of the National Council of Defense, with messages to the people. The crowd rivaled that which gathered at the court house some time ago in the Liberty Bond campaign, in that there was not even standing room in the house.

After the invocation delivered by Rev. W. E. Ellis, pastor of the Paris Christian church, patriotic songs were sung by a choir composed of some of the best musical talent in the city, under direction Mr. A. L. Boatright. Hon. E. M. Dickson presided at the meeting, and introduced the speakers of the afternoon. Dr. Abbott spoke first, and in an address lasting one hour, told in a most convincing way of the message the Government had sent him to convey to the people. He was followed by Dr. Powell, who had but just returned from the battlefields of war-torn Europe. Dr. Powell told in a remarkably fluent and eloquent manner of the cruelties and horrors practiced by the Germans, and of the necessity of America straining every resource to put the Huns out of business.

SOLDIERS' BOOK CAMPAIGN CONTINUED THROUGH WEEK.

Although the campaign for books for the soldiers and sailors practically closed in this city and county last week, Miss Imogene Redmon, who has been in charge of the movement here, received word from the State Library Commission at Frankfort, that the campaign would be continued through this week. The response to the appeal had been very generous, and so many who desire to contribute had not had an opportunity to send their books in that it was deemed best to continue it.

Over six hundred books were received at the Paris Public Library as Bourbon county's contribution to the campaign, and more are expected. The number already received has taxed the storage capacity of the library, but room will be made for others yet to come. The Commission has decided to begin the work of taking over the books, taking them first from the nearest points, and those from Paris will be taken as soon as possible.

RED CROSS AUCTION SALE.

There will be "great doin's" at the court house door, in Paris to-morrow (Saturday) afternoon, at two o'clock, and it will be to the interest of everyone who can do so to attend.

The big auction sale for the benefit of the Red Cross Chapter of Bourbon County will be held at the place and time mentioned above. "Silver-voiced auctioneers" will be at the door and conduct the sale, which will be one of the biggest events of this day and generation. Everything from a pin to a palace will be sold, provided the palace can be secured. From pins to Packards, from pigs to pies, anything, everything will go under the auctioneer's hammer. If you don't attend and buy something, at least, you will prove yourself a slacker of the worst kind.

All donations intended for this auction, which is in a patriotic cause, should be sent to the office of Mr. David D. Cline, County Attorney, in the court house, before noon, tomorrow, Saturday, March 30. They will be taken care of and placed in a secure place for the sale.

WAR SAVINGS STAMP CAMPAIGN

It's going to be "over the top" for the people of Bourbon in the campaign to raise the allotment for the War Savings Stamps campaign which was inaugurated some time ago. That is the prediction freely made yesterday.

According to County Chairman S. E. Bedford, the county has now reached a total amounting to something over \$100,000, and still going strong. There is still a large sum to be raised, but Chairman Bedford and his able assistants are confident that our people will not be found wanting when the time comes, and that Bourbon's allotment will be turned in on time.

Recent additions to the list of Bourbon county people who have come in the \$1,000 club have raised the number to fifty-nine. The most recent additions are Thos. J. Judy, Clifton Gillispie, Allie G. Jones, Henry S. Caywood, Mrs. Rebecca Simms, W. D. McIntyre, Leslie Wheeler.

CHESS AND CHECKERS CONTEST.

The third of the chess and checkers contest being played by the Chess and Checker Club was brought to a successful conclusion at the Y. M. C. A. rooms Monday night. At checkers Mr. Wm. Bowling was the victor, defeating both contestants, viz: Bowling defeated Thomason and Foster; Foster defeated Harris; Clarke lost to Harris; Payne was defeated by Thomason, Clarke and Foster. In the chess contest Judge C. A. McMillan and Sherman H. Stivers played a tie game. The next contest will be played on Monday night. The public is extended a cordial invitation to attend these contests.

FOUR-MINUTE SPEAKERS ENTERTAIN AUDIENCES.

In accordance with the campaign of four-minute speeches promoted by the Government in the interest of Conservation and Liberty Bonds, Attorney John J. Williams, on Monday night inaugurated the series with an address at the Grand Opera House. There were no addresses made on Tuesday afternoon or night, but on Wednesday night Hon. E. M. Dickson made an eloquent and forceful talk at the Opera House, taking as his theme "Farm and Garden." Judge C. A. McMillan will speak on the same subject at the Opera House to-morrow (Saturday) night.

Chairman Williams attended a meeting of "Four-Minute Men" held in Louisville yesterday, at which matters of interest affecting the four-minute speaking campaign was discussed.

As these speeches are delivered "between acts" on the film dramas, it is earnestly requested that the audience remain seated and give the speaker their undivided attention. The messages they give out are direct from the Government and are fraught with great meaning in these times of war.

EXPERT LOOKING INTO GAS AND ELECTRIC SITUATION.

Mr. W. H. Weiss, of Kansas City, Mo., electrical expert and consulting engineer has been in Paris since Monday in consultation with the city officials and the officials of the Paris Gas & Electric Co.

Mr. Weiss has been employed by the city to make an investigation of the gas and electric situation here, and to inquire into the prices paid by the city and by private consumers and will make a report to the City Council. His stay here will be in the nature of an indefinite one.

Mr. Weiss will determine whether or not it will be advisable for the city to construct its own lighting plant, and if his findings are to that effect he will prepare and submit an estimate of the probable cost of same. He will also gather information about the gas situation which has caused so much complaint and comment during the recent winter, and will recommend the passage of ordinances to regulate the public use of natural gas.

BIG PURCHASE OF MULES.

One of the "biggest and best" purchases of that very essential farm animal, the mule, was made recently when Mr. Newt Rankin, of Carlisle, bought of Harrison and Bath county parties, three car-loads of mules.

The purchases were made from Jesse McKee and Joe Hedges, of Harrison county, Thomas Robinson, of Bath county, and Jas. Ralls, of near Millersburg. The mules were a splendid lot and were shipped to Tennessee.

Get Ready For The Change In Time.

Time will take its record-breaking flight Sunday night, when, in accordance with the recently-passed daylight saving act, every clock and every watch in the city of Paris will be turned forward one hour. After much discussion the general opinion has settled that except for the apparent presence of more daylight in the afternoon and night, there will be no obvious difference in either the routine or particular activities of Paris.

The big clock in the court house tower, the timepieces in the railroad offices, and the Government Building, the hundreds of clocks, big and little, watches, alarm clocks, in fact, every conceivable sort of timekeepers, all will be moved up simultaneously, and, once the difference has been made up, nobody will realize the difference until the official order comes in October to "Backward, turn back ward, O Time, in your flight."

In many places the change in time will be made on Sunday, and on Monday morning the average man will open his eyes an hour earlier than usual, and go to work, just to find that he has reached his place of business at the ordinary hour. The changes of the railroad schedules, although definite information is not yet at hand, from the division offices, will, it is understood, be accomplished by sending the trains from terminals one hour earlier than usual on Sunday.

General sympathy has been expressed for the jewelers of the city. In their establishments, where there are a great number of watches and clocks, constantly going, there will be a great deal of work to be accomplished in moving each one up one hour. This will cause a great deal of inconvenience.

Business Men In War Time.

There is too little appreciation, even by business men themselves, of the part business men are playing in the conduct of the war. Up to the present time the function of Congress has been compared to that of a Justice of the Peace at a marriage ceremony. The Justice simply legalizes arrangements which have been decided on in advance, down to the last detail. That is all that has been asked of Congress in the war up to date.

Business men have been charged with the responsibility of outlining programs, and then executing their own plans. Business men are in charge of ship building; they are designing, standardizing and making our aeroplanes; they are building our motor trucks; they are co-ordinating our internal transportation; they are making our munitions; they are conserving our food; they are clothing our army and navy; they have raised and are administering our Red Cross funds; they organized the selling campaign of the Liberty Bonds; they backed the movement to get money for the Y. M. C. A. And no set of business men in the country did a better part in the latter movements than those of Paris and Bourbon county.

Business men are enabled to do these things because they are trained in action. They know how to analyze their problems. They know how to get others to co-operate. They know how to direct those who are less competent, thus making them more productive. They are accustomed to accepting responsibility. They talk little and do much. These are the qualities which the country demands in the conduct of the war, but they are no less valuable in time of peace. With the return of peace it is our belief that business men will continue in the business.

Don't Blame Us!

Don't blame the newspaper man for what happens in the community. If there is anything in the life of the place that you do not wish to go abroad in the world, blame yourself that it exists—not the paper for saying something about it. It is the editor's duty to make a typographical photograph of the town each week and if you take a homely picture don't kick the instrument, but try to get a better expression on your face the next time.

HELPED HIM IN A WEEK'S TIME

Practically Well of Rheumatism Since Taking New Tanlac Radium Treatment

When E. E. Sammons, 3530 Woodburn avenue, Evanston, Cincinnati, started taking Tanlac Rheumatism Treatment a week ago he was down in bed and had been for six weeks. To-day he is up and around; does not suffer any at all from rheumatism pains, and says he is going back to work soon. He gives Tanlac Rheumatism Treatment all the credit for his remarkable improvement.

"My rheumatism got so bad that I had to quit work and the last six weeks I haven't even been able to get out of bed," said Mr. Sammons. "I had aches and pains and twinges all over my body. The pains were worse in my left side. They'd start in my hip and run down my leg. 'I tried everything, but nothing helped me."

"I read in the papers about Tanlac Rheumatism Treatment and sent my wife for a bottle. That was just a week ago to-day, and in just one week Tanlac Rheumatism Treatment has improved me so much that I'm up out of bed; all the aches and pains and twinges have disappeared entirely, and my limbs don't hurt me a bit any more."

"The radium emanations in Tanlac Rheumatism Treatment certainly do the work. I'm practically a well man and I surely want to recommend this medicine to everybody suffering from rheumatism."

If you suffer from rheumatism get Tanlac Rheumatism Treatment to-day and get a real medicine for this dreaded complaint. You can get Tanlac Rheumatism Treatment at Varden & Son's. (adv)

FOOD ADMINISTRATOR SUGGESTS NO APRIL FOOL CANDY.

According to reports received here yesterday District Food Administrator, William E. Simms, of Lexington, has requested that the annual waste of material used in making "April Fool candy" be eliminated this year, on account of the pressing need of foodstuffs in winning the war. The following statement was received here from Mr. Simms:

"The suggestion has been made to this office that this year the annual waste of materials used in making 'April Fool candy' and other substances should be eliminated, and I think it is an excellent idea. I wish you would give through the columns of your papers all the publicity to this you can. Ask all the confectioners' shops candy makers, and those in private homes to forego this foolish waste of valuable foodstuffs at a time when our country is in dire need of all the saving in the food line that is possible."

WHAT A PIG CLUB BOY HAS DONE

In May of 1916 I bought two registered Duroc-Jersey sow pigs at two months old for \$10 each. I fed them on a balanced ration of corn shorts, tankage and skimmed milk. I fed them until the county fair and exhibited them there, winning first and third in the pig club contest, and second on best gilt, and second on best pair of gilts in the breeders' classes. The first premium in the pig club contest was a free trip to the Kentucky State Fair.

At the State Fair one of my gilts won second in both the pig club contest and the breeders' class.

After the contest I kept feeding them a good growing ration, being careful not to get them overfat for breeding purposes.

The two sows have raised twenty-five pigs out of thirty in two litters. I have sold about \$450 worth of pigs and have two spring gilts coming on for next year.

With this money I have bought a registered Jersey cow and a registered Shorthorn heifer, and own half interest in a \$150 Duroc boar.

I believe in pure bred live stock on the farm. They may cost a little more in the beginning, but they return the most profit in the end.—David C. Walter, in Southern Agriculturist.

RUB NEURALGIA PAIN AWAY. DON'T SUFFER

Instant Relief! Rub Nerve Torture, Pain and Misery Right Out With "St. Jacob's Liniment."

Conquers pain—never fails. Rub soothing, penetrating "St. Jacob's Liniment" right on the ache or pain, and out comes the neuralgia misery.

Here's a joyful experiment! Try it! Get a small trial bottle from your druggist; pour a little in your hand and rub it gently on the sore, aching nerves, and before you realize it—in just a moment—all pain and neuralgia disappear. It's almost magical, but the joy is, that the misery doesn't come back. No! The nerves are soothing and congestion is relieved and your neuralgia is overcome.

Stop suffering! It's needless—neuralgia and pain of all kinds, either in the face, head, limbs or any part of the body, is instantly banished. "St. Jacob's Liniment" is perfectly harmless and doesn't burn or discolor the skin. In use for half a century. (adv)

ATTENTION, RED CROSS KNITTERS, TO THIS!

News has been received from Washington to the effect that a wrong impression has gone out with regard to the future of knitting articles. It was not the intention of national headquarters to cut down altogether on the production of sweaters, so chapters may use up all the yarn that they have on hand or on order, for this purpose.

It will be necessary, of course, to build up a large reserve of sweaters to have on hand for next winter. However, with the advance of warm weather and with arrangements already made to take care of immediate needs, it is felt that for a while it would be advisable to devote more energy to the knitting of socks.

There is always a tremendous demand for socks and the Red Cross will never be able to supply them. But we must also prepare for the sweaters that will be needed next winter. So while we may, for the present, specialize very greatly on socks, we must not give up entirely the production of sweaters. The supply of wristlets has been filled for the present, and no more are called for.

SECOND DRAFT MEN NOT TO BE CALLED SOON.

According to information given out by the local Board of Exemption, it is not thought the men who were examined for the last draft called will receive orders for service for some time yet.

The next quota to leave this city will be the fifty-three colored men who are scheduled to start on next Monday morning for Camp Zachary Taylor. This will complete the quota from this county for the first draft call. Before the others leave it will be necessary for the Government to issue orders calling out the second draft, and this has not as yet been done. It is thought that this may be issued soon after Secretary of War Baker returns from the Western front. After the orders come it may be some weeks before the men in this county are called to the service. In all probability it will not be before June.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy. It is taken internally and acts thru the blood on the Mucous Surfaces of the System. One Hundred Dollars Reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for testimonials.

Country Produce High.

All dairy products are higher now than they have ever been in the history of the country. The price of butter and milk is steadily advancing and the meat prices are also bound to increase. This is not the result of the combination of the meat packers or any other so-called trust methods. It is due solely to the scarcity of cattle in this country. The open range has disappeared and the farmer is now raising corn instead of cattle.

Master's Sale

BOURBON CIRCUIT COURT.

Carrie Coleman and Others. Plaintiffs Vs.—Notice of Sale. John Frazier and Others. Defendants

Under and by virtue of a judgment and order of sale rendered at the November term, 1917, of the Bourbon Circuit Court, the undersigned Master will, on

Saturday, April 6, 1918,

at the front door of the Court House, in Paris, Kentucky, at about the hour of 12 o'clock (noon) a. m., sell at public auction to the highest and best bidder the following described property:

A certain lot or parcel of land lying and being in Bourbon County, Kentucky, on the waters of Houston and bounded as follows:

On the North by the Bethlehem and New Hopewell Turnpike; on the East by Jim Murphy; South by King Brooks; on the West by Will Williams; supposed to contain two acres, more or less, and being the same property conveyed to Isaac Frazier by George Arnett and Rebecca J. Arnett, his wife, by deed dated May 22, 1878, recorded in Deed Book 65, page 84, in the office of the Clerk of the Bourbon County Court.

Said sale will be made upon the credits of six and twelve months, the purchaser or purchasers being required to execute two bonds for equal parts of the purchase price, with good surety, to be approved by the Commissioner, due six and twelve months from date of sale respectively, and bearing interest at six per cent. per annum from date until paid, said bonds to have the force and effect of judgments, and the purchaser may, at his option, pay cash. Said sale is made for the purpose of a division among the parties in interest.

O. T. HINTON, Master Commissioner. (mar22-29-apr5)

NOW RAISES 600 CHICKENS

After Being Relieved of Organic Trouble by Lydia E. Pinkham's Vegetable Compound.

Oregon, Ill.—"I took Lydia E. Pinkham's Vegetable Compound for an organic trouble which pulled me down until I could not put my foot to the floor and could scarcely do my work, and as I live on a small farm and raise six hundred chickens every year it made it very hard for me."

"I saw the Compound advertised in our paper, and tried it. It has restored my health so I can do all my work and I am so grateful that I am recommending it to my friends."—Mrs. D. M. ALTERS, R. R. 4, Oregon, Ill.

Only women who have suffered the tortures of such troubles and have dragged along from day to day can realize the relief which this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, brought to Mrs. Alters.

Women everywhere in Mrs. Alters' condition should profit by her recommendation, and if there are any complications write Lydia E. Pinkham's Medicine Co., Lynn, Mass., for advice. The result of their 40 years experience is at your service.

MAY EXTEND DRAFT AGE TO MEN OF 45.

Senators without as much as a record vote during consideration of some army bills, rejected a proposal by Senator Hardwick to excuse drafted men from liability to military duty if they have passed 31 without entering the national army.

"The nation may need not only men who have passed the age of 30," declared Chairman Chamberlain, of the Military Committee, "but those as old as 45, and possibly those between 18 and 21."

A RIDICULOUS RUMOR.

(Courier-Journal)
There could have been no more absurd rumor—none more palpably false on its face—than the rumor which excited so many Kentuckians Sunday that the German Kaiser and Crown Prince, with 150,000 German soldiers, had been captured by the British.

The Kaiser and his offspring never get near enough to the fighting front to be captured. They never will get near enough, however the fortunes of war may go against them, to be captured with 150,000 of their troops.

The Kaiser has six sons holding important positions in the army, and though millions of the troops which they command have been killed or wounded, not one of these Hohenzollern princelings has been scratched.

The Kaiser may be captured some day. He will be captured unless he decides to make peace on terms of the Allies, or unless he gets his deserts of "no quarter." But he will never be captured with 150,000 of his troops. He will have run too fast and too far for any such body as 150,000 soldiers to keep in sight of him.

NOTICE TO THE PUBLIC.

You are hereby notified to boil all water used for drinking or domestic purposes, whether it be from hydrant, cistern, well or spring. This is important, and you will govern yourselves accordingly.

LOCAL RED CROSS CHAPTER IS THANKED FOR DONATIONS

Mrs. Arthur B. Hancock, Chairman of the Paris Chapter, American Red Cross Society, hands in the following letter received by Mrs. Denis Dundon, Secretary of the local Red Cross Society:

51 Rue de Ponthieu,
Paris, March 5, 1918.
The Secretary Paris Chapter,
American Red Cross,
Paris, Kentucky.

Dear Madam:—
It is with great pleasure that I write to notify you of the safe arrival of a case from the Paris Chapter of the American Red Cross, containing hospital supplies, which I wish to assure you are most welcome.

This is the first time we have received a shipment from your good selves (since the formation of the new Department called Section of Donations.) I trust it will not be long before we can add several more of your splendid goods to our supplies, which are rapidly being called for and shipped to our base hospitals.

Yours very truly,
SECTION OF DONATIONS,
George T. Rice, Chief.

RELIGIOUS.

—At the evening service at the Christian church Sunday, the pastor, Rev. W. E. Ellis, will preach a special sermon on the subject of "The War."

—The Endeavor Society of the Presbyterian Church will meet at 6:30 in the court house Sunday evening. Subject will be, "Lessons From the Risen Christ's Forty Days." Leader, Mrs. Wilcox.

The congregations of the First and the Central Presbyterian churches at Maysville have perfected plans for consolidation. The merger was practically agreed upon when the membership voted unanimously to consolidate the two churches. They have been separated since the Civil War.

—The Christian Endeavor Society of the Christian church will meet in the church parlors at six o'clock Sunday evening. A special program has been arranged for the occasion. The subject will be "Lessons From the Risen Christ's Forty Days." Leader, Miss Esther Boatright.

—Churchgoers, don't forget that there will be a change in the hours of meeting, to conform to the requirements of the daylight-saving act. The time will be advanced one hour. Keep your eye on the clock, and don't forget the change in time. This will still bring you to church at the same old time, though in a way one hour earlier.

—The Teachers' Training Class of the Christian church Sunday school, which is taking advanced work will meet next Tuesday afternoon at four o'clock, with Mrs. Moore, on Cypress street. The Workers' Conference of the same school will meet in the church parlors Wednesday night, just after the prayer meeting.

—The seventh annual session of the State Woman's Missionary Society of the Methodist church convened at the First Methodist church, in Lexington, Wednesday, with an attendance of about two hundred delegates and visitors. The features of the morning session were the reports of the young people's work, by Miss Laura Lileston, of Paris. One of the features of the afternoon session was the report of the Superintendent of Social Service, Mrs. Oakford Hinton, of Paris. Miss Laura Lileston conducted the children's services at the night session yesterday.

—The Sunday School of the Baptist church will give a missionary program at the church Sunday morning, at the close of the regular session of the school. This program will take the place of the regular preaching sermon. The program will begin about 10:30 and last about one hour. The public is cordially invited and any who expected to come to the regular church service are asked to be at the church by 10:30. This is the annual missionary day of the Sunday school, and the school expects to make an offering of \$100 for missions. The regular night service will be an Easter service, and will begin at seven o'clock. Prayer meeting next Wednesday evening at seven o'clock. This is the time for the monthly business meeting. Every member of the church is urged to be present.

CHEMICAL ANALYSIS SHOWS LOCAL WATER SUPPLY PURE

Recently Mayor E. B. January sent samples of water taken from hydrants located at different points in Paris, and a sample of the water taken from Stoner Creek to State Sanitary Engineer Curry for an analysis. The water was sent to determine whether or not it was fit for human consumption.

A recent communication from Engineer Curry is most assuring to the water consumers in Paris, as it shows that the water from water mains examined by him is free from pollution and entirely safe to be used for drinking purposes. The communication is as follows:

Bowling Green, Ky.
March 25, 1918.
Hon. E. B. January, Mayor,
Paris,
Kentucky.

Dear Sir:
We have made bacteriological examination of the four samples of water submitted by you with the following results:

The sample from Stoner Creek, where the Water Company secures their supply before being pumped into their filtering plant, shows pollution with colon bacillus or sewage bacteria derived from intestinal discharges, as would naturally be expected from untreated water.

The other three samples taken from hydrants at the High School and the residence of Mr. Wm. Schrote show no evidence of pollution in the present samples, and we hope you can continue to operate your plant so that you can at all times secure sterile water for drinking and domestic use.

We trust you will send us the other four bottles with samples of water for analysis at your earliest convenience.

If we can be of further service to you, please call upon us.

Very truly yours,
D. F. CURRY,
State Sanitary Engineer.

A GOOD LAW.

One of the bills that passed both houses of the Legislature at the recent session was one requiring automobiles to use a standard make of headlight, so as to do away with the glaring, blinding effect that has been the cause of numerous accidents on the roads in the county. The bill requires the use of a headlight so arranged that it will not cast a light above a certain number of feet ahead of the machine. It must be made of a specially constructed prism so arranged that the glare of the light is thrown down on the road ahead of and not directly on a level with the headlight of the machine.

This will be hailed with delight by the more considerate autoists and others who use the road at night. We have heard of numerous cases of where persons riding along the roads at night in vehicles have been almost blinded by the glare of an approaching headlight. The more cautious ones would draw off to one side of the road rather than risk loss of life or limb by the reckless driving of some chauffeurs, who could not profit by their own light. Others have been less fortunate, and as a result the services of a physician, also of a repair shop were in demand.

FISH OF ALL KINDS.

PUBLIC AUCTION OF Small Suburban Farms!

We will sell at public auction, without reserve, on the premises, on the Clintonville pike, just outside the City limits of Paris, on

Saturday, March 30, 1918

beginning at 11 o'clock sharp, three desirable small farms, containing from four to five acres each. These small farms or home sites are situated on the South side of the Clintonville pike, having a frontage on said pike of 210 feet.

The land is in a high state of cultivation, being excellent soil for the cultivation of hemp, truck gardens, tobacco, etc. Each tract is an ideal one for a home site, and investors can feel assured of adequate returns on their money invested here.

These tracts are located in a neighborhood built up with substantial homes, and all occupied by good neighbors.

Natural gas is easily obtainable from these tracts, the main gas line passing directly in front of the land.

TERMS—Easy and made known on day of sale.

For information apply to the undersigned, who will take pleasure in showing the property to prospective purchasers.

'The Ne Plus Ultra of Corsetry'

The Hon. Mrs. Grahame was a famous beauty of her time, and was considered one of the most beautifully dressed women—so beautiful that Gainesborough required no accessory in his painting.

The proportions of her figure so carefully taken denote that she could have worn this model.

Nature gave her a low bust, and this little model would have held the bust and cunningly indented the waist with that very straight front and back line so much the vogue.

This beautiful model is made of fine batiste. It exquisitely completes the lingerie of the well dressed woman.

THEY ARE THANKFUL.

Miss Imogene Redmon, librarian of the Paris Public Library, and those who were associated with her in the recent campaign for books for the soldiers and sailors, extend their thanks to the public for the generous response made to the appeal.

The most sanguine expectations of the promoters of this work have been realized, and Paris and this community have again demonstrated their patriotism in making such a contribution to the encouragement, recreation and education of America's defenders.

COURT OF APPEALS DECISION.

By the terms of a decision rendered by the Court of Appeals at Frankfort recently a suit brought by Judge Denis Dundon, of Paris, for \$1,500 against committee for W. T. Fitzpatrick, of Mt. Sterling, was decided in his favor.

The suit was for a fee charged by Judge Dundon in defending a suit to have Mr. Fitzpatrick's property taken out of the hands of a committee which had been appointed for the purpose of taking care of his property. Judge Dundon won the suit in the lower court, and the committee appealed the case to the higher court.

Mr. Carter will have a traveling position, his territory covering West Virginia and Kentucky, but having his headquarters in Huntington. His family will remain in Paris for the present, and will join him later on.

NEW P. H. S. TEACHER.

Miss Stella Stephens, of Mt. Sterling, has been chosen as a member of the Paris High School faculty, and will have charge of the department of mathematics. The Mt. Sterling Advocate says of Miss Stephens:

"Miss Stella Stephens, daughter of Mr. and Mrs. C. B. Stephens, has accepted a position as teacher of mathematics at Paris High School at a splendid salary. Miss Stephens will graduate at Georgetown College in June. She was the winner of first honors at the local High School and is considered one of the best mathematicians in Central Kentucky. Her many friends will be pleased to learn of her success."

—Mr. and Mrs. Robert L. Frank and children, Robert L. Jr., and Miss Hallie Frank, will leave next week for Saranac Lake, New York, to remain until October.

—A large number of out-of-town people attended the dance given Wednesday night at Varden's Hall by the young men of Paris. The hours were from 8:30 to 4:30.

—Mr. and Mrs. Jos. W. Davis will return to-morrow from a winter's sojourn in St. Petersburg, Florida. Mr. Davis will have with him the handsome medal awarded him as the "champion" fisherman of Florida, won after many hard-fought contests.

—COUNCILMAN AND NEWSPAPER MAN PLAY "IN AGAIN, OUT AGAIN."

Douglas Fairbanks, in his best stunts, can never hope to outdo the athletic performance recently pulled off by Councilman Merringer and Mr. R. S. Porter, who played the hero act and rescued a lovely damsel from distress Wednesday night.

The night operator at the Home Telephone exchange in this city, attracted by the strains of music from the dance in progress at Varden's Hall, came down to the front door to "listen in" a while. While standing there the door, in a perverse moment, blew shut, and the night latch snapped, making the operator a prisoner on the outside. In her dilemma, not being able to climb the awning or to make ingress in any other way, she ran to Councilman Merringer's business place where he was engaged in conversation with Mr. Porter, and stating her position, made an appeal for help.

Mr. Merringer secured a ladder, and accompanied by Mr. Porter and the damsel in distress, returned to the Home office, where he "went over the top," descended to the lower floor, and unlocked the door. Mr. Porter held the ladder to keep it from running away leaving Mr. Merringer defenseless. The operator returned thanks for kindnesses rendered, the gallant rescuers blushing proudly treated, and all was well.

Water with ice in it should never be used for drinking purposes—

Your physician will tell you that. With an Automatic refrigerator you get a built-in, porcelain lined water cooler. It forms part of the wall next to the ice, and requires no extra ice.

In other words, refrigerating both your foods and water, your ice does double duty.

If you use bottled water you get an extra holder which is a patented article and can be used only by the manufacturers of the Automatic.

The water cooler is lined with snow-white, genuine porcelain—and there is always a refreshing drink of cold water if you have an Automatic, the refrigerator that has everything good, plus.

Step in and look at this cooler when close by—and ask for an interesting booklet on the proper preservation of foods, etc.

Owner of Land Made Rich—Man Digging Ditch Cured of Tenacious Disease

STORY A ROMANCE

People With Stomach, Kidney, Blood, Rheumatic or Skin Affections Relieved

Acid Iron Mineral (non-alcoholic, natural iron) is taken from a great deposit found upon a poor farmer's place near Hickory, Mississippi, and the story of this great gift of nature's, which made the farmer rich and the medical world richer, and makes it possible for the people to quickly treat stomach, digestion, kidney, blood and rheumatic complaints at home, makes interesting reading.

An old man while digging a mill race on the Horn Farm, ran across it. He was afflicted with an old fever sore and blood troubles which were considered incurable. During the several weeks digging his feet and legs were wet each day as water gathered and he noticed that this water turned a reddish color caused by mixing of water with the vein of peculiar looking mineral, almost like powder, which had apparently laid for centuries encased in a marble-like casting of rock and clay.

The sore on his leg began to heal and by the time his work was completed his leg was sound and well. This was considered so very remarkable by the people of that section that an investigation was made and it was found to be like radium, gold, platinum and other wondrous secrets of nature—a natural compound containing inimitable properties in proportions no chemist has attempted to duplicate, though a large sum was offered he who could accomplish this.

To-day, like radium, which is used in curing cancers, x-ray work, and illuminating watch dials, so Acid Iron Mineral has its many uses, being a remarkable remedy used externally or internally and anyone troubled with blood diseases, eruptions, rheumatism, kidney, bladder or stomach disorders of any sort may wisely visit the nearest store and procure a bottle. A twelve-ounce bottle sent prepaid on receipt of \$1 by the Ferroline Chemical Corp., Roanoke, Va., or send stamped envelope with letter telling what your trouble is, for folder telling more about this great iron preparation, Acid Iron Mineral.

Sold in Paris by Brooks & Snapp Drug Co., and by good stores elsewhere. (adv)

FAMOUS ROBBER RESORT NOW RED CROSS HEADQUARTERS

Isolated Jackson Hole, in Western Wyoming, famous as one of the Western retreats and havens of refuge for train robbers, cattle thieves and other outlaws, embraces now a snow-bound chapter of the Red Cross that is considered unique by Red Cross mountain division headquarters.

The membership of the chapter is 455 persons scattered over a wide expanse of territory. The only outlet to Jackson Hole for eight months of the year is a single wagon road over Teton Pass. Through the winter months the members are much accustomed to seeing herds of from one thousand to two thousand elk that they are a single human besides members of their own households. To-day, with the exception of newspapers and telephone, "the Hole" is like the rest of the West fifty years ago.

But it is not only for the soldiers that the Red Cross chapter has been a benefit. Until it was organized, Lee Cooper, its secretary, says that motion pictures, lectures, Y. M. C. A. or Red Cross organizations never had penetrated the valley. Most houses are built of logs and snow makes travel difficult in winter, but the chapter has a record with the division headquarters for knitting and giving other supplies for the troops.

With the approach of the summer political campaigns we await the various proclamations of neutrality.

JUNIOR FOUR-MINUTE MEN IN THIRD LIBERTY LOAN.

Plans have been announced for the organization of "Junior Four-Minute Men" in every school in the country. According to the Division of Four-Minute Men of the Committee on Public Information, bulletins especially prepared for school children will be sent during the third Liberty loan campaign for distribution by superintendents to all schools in the United States. Addresses will be prepared from the material in these bulletins just as regular Four-Minute speakers in motion-picture houses prepare their own speeches from bulletins supplied by the Government.

In each school the children submitting the best speeches are to deliver them in public. According to plans the boy or girl awarded first prize is to get a certificate from the United States Government as a Junior Four-Minute Man.

BELIEVE AIRPLANE ACCIDENTS DUE TO GERMAN-MADE GOGGLES.

Charges that airplane goggles, manufactured by a German firm in this country and used extensively by American aviators, were so constructed as to make it impossible for the aviator to judge distances correctly, were investigated by Major General O. Squier, chief signal officer. Gen. Squier had before him a voluminous report with reference to the goggles, which have been banished from the Rockwell aviation school at San Diego, and until he had completed his investigation he refused to comment on the incident.

Aviation officers here were deeply interested in what appears to have been a sensational disclosure, and several, unofficially, ventured the belief that the investigation may reveal the cause of many of the recent fatal accidents to American aviators in training.

The discovery that the refraction of the lenses was faulty was made by Major John Purroy Mitchell, former Mayor of New York, it is stated. Many cadets complained that while flying at a height of 50 feet, the goggles made the distance appear about 30 feet. Major Mitchell found himself unable to make a correct landing while wearing the goggles, but the difficulty disappeared when he dispensed with them.

TO AILING WOMEN

A Little Sound Advice Will Help Many a Sufferer in Paris.

No woman should consider herself healthy and well if the kidneys are weak. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are disordered. If the kidneys and bladder become inflamed and swollen worse troubles may quickly follow. This is often the cause of break-down pains, lameness, backache, etc. Uric poisoning is also frequent cause of headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that has proven effective in thousands of such cases. Let a Paris woman tell of her experience.

Mrs. A. L. Burley, 329 Eighth St., says: "I have used Doan's Kidney Pills, getting them from the Ardery Drug Co., and from the benefit I received, I certainly think they are a good, reliable remedy. Whenever my kidneys have acted irregularly or my back has been weak and lame, I have used a box or so of Doan's Kidney Pills. They have always relieved me of the complaint."

Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Burley had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. (adv)

PERUNA in Your Home

A housewife must give the first aid in colds, coughs and other ailments. Her promptness in applying the remedy often saves a serious illness. Her experience with remedies has led her to know that PERUNA is always reliable, that she should have it on hand for the immediate treatment of coughs and colds, and that it is always to her

Mrs. George Parker, 419 Water St., Memphis, Wis., writes: "We have used Peruna in our family for a number of years, and have found it a perfectly reliable medicine. It soon rid the system of any traces of a cold, and prevents serious consequences. I began using it for catarrh, which I suffered with a good many years, but had not been very serious until recently. Since I have taken Peruna the dropping in my throat has discontinued, and my head and nose are not so stopped up in the morning. I am pleased with the results, and shall continue to use it until I am entirely rid of catarrh. I heartily recommend it as an honest medicine. What it does for her it is ready to do for you."

The Family Safeguard

The experience of one woman, given herewith, is typical of thousands of letters that reach the Peruna Company from grateful friends who have found their homes incomplete, and their family safety in danger without PERUNA.

Colds and Catarrh

The great weight of testimony that has accumulated in the 44 years that PERUNA has been on the market proves it, beyond question, to be the reliable family remedy, ever ready to take, preventing the serious effects of colds, coughs, grip and derangements of the digestive organs. This proof is published from time to time and many families have profited by it.

Remember you can obtain PERUNA in tablet form for your convenience. Carry it with you and be fortified against sudden attacks.

The Right Number

When you go out to make a call in person you always assure yourself of the right address.

In making a telephone call it saves a lot of time and bother to be sure of the number.

The absolutely sure way is to first consult the telephone directory—not trusting to memory—and then listen carefully when the operator repeats back to you the number, correcting her if she is wrong.

OIL IS KING

A great opportunity exists to-day for the investor in oil stock. Never before has there been such a demand for oil. The Government is calling loudly to the oil operators to speed up work, and assisting in getting equipment. It will help win the war.

The Columbia Oil & Gas Co.

expects to start a drilling campaign this Spring and summer on some of its most valuable leases. Drilling rigs are now being moved to our lease in Lee county, which is located in that marvelously rich section. There is room for 15 or 20 wells on this lease, which should make the company a rich producer—and a very big dividend payer.

An opportunity is offered for a short while, to buy the stock at 75 cents a share.

RURAL MAIL DELIVERY ROUTES

Will it pay the government to op-
erate motor trucks on rural delivery
routes?

Statistics collected by the United
States postal authorities, and supple-
mented in part by investigations
made by crews of tire testing fleets
of the B. F. Goodrich Rubber Com-
pany, operating in the rural districts
of the South, show conclusively that
Uncle Sam can enrich himself by at
least \$100,000,000 by installing motor
trucks on his "farm to table"
routes. Data shows that the an-
tiquated system in vogue—the use
of the horse and wagon on 44,000
routes throughout the country—is a
losing proposition; and to the ex-
tent of \$30,000,000 too. The few
motor truck investments made by
the government last year earned
\$70,000 apiece on an original in-
vestment of \$4,200 for each truck.
Moreover, communities were reached
by the motor trucks that had never
been visited before by Uncle Sam's
mail carriers.

The assertion that there are roads
to-day never traversed by govern-
ment delivery wagons may seem in-
credible, but the postoffice authori-
ties support the statement that of
the 2,199,000 miles of roads in this
country, 1,122,000 miles have no
mail service at all. Furthermore,
there are 1,500,000 families in our
enlightened nation that have no
postal communication with the out-
side world.

As one editor sized it up: "Aus-
tria can't; Germany won't."

INTERNATIONAL PEACE PLAN.

An international peace plan to ef-
fect immediate cessation of the war
and to maintain future peace in the
world, was outlined to the Senate by
Senator Owen, of Oklahoma, author
of a resolution proposing a league
of nations to enforce peace.

A treaty describing the principles
of international law and conduct of
nations among the United States,
Great Britain, France, Italy, Japan
and China, was proposed by Senator
Owen. He suggested that upon com-
pletion of such an agreement, Ger-
many be invited to pledge adherence
to the principles enunciated.

As a penalty for refusal, Senator
Owen proposed that Germany should
be subjected to economic isolation
for five years. For every thirty days
in which she failed to accept the
plans an additional penalty of one
year's isolation would be imposed.
"This would bring German merchants
and manufacturers to bankruptcy,"
said Senator Owen in explaining his
plan. "It would hit them in their
most tender spot."

To enforce the proposed economic
isolation of Germany, Senator Owen
would refuse entrance or clearance
to German shipping and ban imports
or exports from Germany, together
with absolute severance of postal,
telegraphic or telephonic communi-
cation.

If Germany desires to join the
league and accept its principles, Sen-
ator Owen said, she must agree to
evacuate Belgium, Serbia and other
occupied territory and make repara-
tion.

FORGOT WHAT HE NEEDED.

From the Republican, Mt. Gillad,
Ohio: The editor had an interesting
experience some time ago, when a
young gentleman came to his office
and asked for a copy of the Morrow
County Republican. He scrutinized
it carefully when a copy was handed
him, and then said: "Now I know!"
"What is it you are looking for," we
inquired. "My wife sent me after
a bottle of Chamberlain's Cough
Remedy, and I forgot the name. I
went to several stores and the clerk
named over everything on the shelf
except "Chamberlain's". I'll try
again, and I'll never go home with-
out Chamberlain's Cough Remedy." The
Republican would suggest to the
proprietors of drug stores, that they
post their clerks, and never let them
substitute. Customers lose faith in
stores where substituting is permitted
to say nothing of the injustice to the
makers of good goods and the disap-
pointment of customers.

FURTHER CONSERVATION OF WHEAT DEMANDED BY HOOVER.

Further reduction in the con-
sumption of wheat is asked of the
public by the Food Administration
that the scant supplies available be-
fore the next harvest may be stretch-
ed to meet the needs of the army, do-
mestic consumers and the Allies.

Every American is requested to cut
his average ration of wheat by 15
per cent., which would reduce the
total normal consumption of 42,000-
000 bushels a month to 21,000,000.
This gives a ration of not more than
one and one-half pounds of wheat
products weekly for each person.
Flour sales will be cut to one-eighth
of a barrel for a town customer and
to one-quarter of a barrel for coun-
try consumers, that retailers' stocks
may be distributed to as great a num-
ber as possible.

The wheat content of baker's bread
will be reduced to 75 per cent on
April 14, which increases by 5 per
cent. the amount of substitutes that
must be used.

The full seriousness of the wheat
situation, and some of the difficulties
with which the food administration
has had to contend in warding off
famine from the Allies became known
with the announcement of the new
plan.

In a statement given out by Mr.
Hoover the following restrictions
were placed upon public eating places
and clubs:

"Public eating places and clubs
will observe two wheatless days per
week, Monday and Wednesday, as at
present. In addition thereto not
serve to any one guest at any meal
an aggregate of breadstuffs, maca-
roni, crackers, pastries, pies, cake,
wheat breakfast cereals, containing a
total of more than two ounces of
wheat flour. No wheat products to
be served unless specially ordered.
Public eating establishments not to
buy more than six pounds of wheat
product for each 90 meals served,
thus conforming with the limitations
requested of the householders."

YOU CAN'T FIND ANY DANDRUFF, AND HAIR STOPS COMING OUT

Save Your Hair! Make It Thick,
Wavy, Glossy and Beautiful
At Once.

Try as you will, after an applica-
tion of Danderine, you can not find a
single trace of dandruff or falling
hair and your scalp will not itch but
what will please you most will be
after a few weeks' use, when you see
new hair, fine and downy at first—
yes—but really new hair—growing
all over the scalp.

A little Danderine immediately
doubles the beauty of your hair. No
difference how dull, faded, brittle
and scraggy, just moisten a cloth
with Danderine and carefully draw it
through your hair, taking one small
strand at a time. The effect is im-
mediate and amazing—your hair will
be light, fluffy and wavy, and have
an incomparable lustre, softness and
luxuriance, the beauty and shimmer
of true hair health.

Get a small bottle of Knowlton's
Danderine from any drug store or
toilet counter, and prove that your
hair is as pretty and soft as any—
that it has been neglected or injured
by careless treatment. A small trial
bottle will double the beauty of your
hair.

Three small farms, or home sites on the Clintonville pike, just outside the city, will be sold Saturday, March 30. Each tract fronts 210 feet. See description and plat on page 3. (26-2t) **HARRIS & SPEAKES.**

COMMENDATION FOR COMMISSIONER COHEN.

State Agricultural Commissioner Mat S. Cohen recently sent out to farmers of Kentucky a personal letter to the number of fifteen thousand, urging them to get in on the War Savings campaign and help raise Kentucky's quota of "Fifty Millions in 1918."

Relative to this good work of Mr. Cohen, Federal Director J. D. Lyon, of the district embracing Kentucky, wrote State Headquarters as follows: "Mr. Cohen's letter is certainly an earnest appeal to the citizens of Kentucky for their co-operation and assistance in the National War Savings Campaign movement. Such a letter will no doubt bring gratifying results."

REAL ESTATE DEALS.

Mr. Wm. H. Whaley recently sold a farm containing 280 acres of land, located on the Jacktown pike, to Mr. James McClure and Mr. Jos. Plummer, of Paris, for a price not given out for publication.

DEATHS.

BAKER.

—After an illness of nearly two years, Bettie Righter Baker, aged eight, died at the home of her parents, Mr. and Mrs. Robert L. Baker, at College Corners, Ohio, Wednesday. She was born near Ruddles Mills, in this county, and is survived, besides her parents, by four brothers and two sisters.

The funeral was held in the Presbyterian church at College Corners, conducted by Rev. E. L. Wehrenberg. The interment followed in the College Corners Cemetery.

WILLS.

—Mr. Green T. Wills, aged sixty-two, died at his home near Millersburg from the effect of injuries sustained by falling from the roof of his home. He was twice married, his first wife being a sister of Mr. James Porter, formerly of Paris and Carlisle, now residing in Louisville. His second wife was Miss Tanner, of Clark county, who survives him.

The funeral was held at the residence with services conducted by Rev. J. W. Crates, followed by burial in the Carlisle Cemetery.

EALLES.

—The remains of J. Frazier Eales, formerly of Cynthiana and Carlisle, who died in 1892, were taken from the vault in the Battle Grove Cemetery at Cynthiana, Wednesday, and brought to Paris, where they were interred beside the remains of his wife, in the Paris Cemetery. Mrs. Eales was formerly Miss Sadie Remington, daughter of the late Mr. and Mrs. B. F. Remington, and a sister of Mr. William Remington, of the Paris Democrat, Mr. Frank Remington, Mrs. Mayme Remington Parrish, all of Paris; Mrs. Wm. Howard, of Richmond, and Mrs. Alice Fisher, of Carlisle.

JONES.

—Mrs. Gertrude Jones, aged twenty-six, died Wednesday morning at the Good Samaritan Hospital, in Lexington. The body was brought to Paris and taken to the family home on West Nineteenth street. Besides her parents, Mr. and Mrs. D. T. Boaz, she is survived by one daughter, Miss Mary Jones, and five brothers, James, Clarence, Clay, Frank and Ora Lee Boaz.

The funeral was held at the home yesterday afternoon at two o'clock with services conducted by Rev. W. E. Ellis, pastor of the Paris Christian church. The burial followed in the Paris Cemetery. The pallbearers were James Boaz, Clarence Boaz, Edgar Boaz, John Carter, Jesse Calloway and Rankin Mastin.

BEATTY.

—Mr. George Beatty, aged about fifty-five, a former resident of Paris, died at the home of his sister, in Kansas, a few days ago, after a long illness of tuberculosis.

The news was received in Paris in a letter to a girl friend from his daughter, who, with her mother, is now residing in Dayton, Ohio. Mr. Beatty had for some months been in the employ of the Government, engaged in transferring remounts for the cavalry service to points of embarkation or to the different army camps. He was a member of the local lodge Knights of Pythias. Before his illness incapacitated him for active work, he had been in the employ of January & Connell, in this city. He went West about a year ago, in hopes the change of climate would be of benefit to him, but the dread disease had gained too strong a hold on him.

VALUABLE PROPERTY AT AUCTION ON SATURDAY, APRIL 6.

Beginning at 1:30 p. m., on Saturday, April 6, Harris & Speakes will sell for James McClure 15 pieces of valuable city property. Some fine business property, a number of beautiful cottages and a number of desirable building lots go in this sale. If you need a home or want investment property this is your opportunity. (26-3t)

STOCK, CROP, ETC.

—Mr. R. E. Rash, of North Middletown, purchased a fine saddle mare from Mr. C. C. Boyd, of Montgomery county, for \$250. Mr. Ashbey Gilkey, of the same vicinity, sold to Mr. D. P. Henry a six-year-old mare for \$225.

FOURTH LIBERTY LOAN WILL BE LARGEST.

Secretary McAdoo, Tuesday night, announced that, following the third Liberty Loan campaign, there would be a rest of eight months. In October or November the fourth issue will be made, the largest of any yet put before the public. To prepare for it the Treasury Department has asked that the limit of outstanding certificates be raised from \$4,000,000,000 as at present to \$8,000,000,000. Secretary McAdoo denied that the "Baby Bond" would be abandoned. The denominations of the third loan will be the same as for former issues.

B-4 FIRE Insure with W.O. HINTON & SON, Agts

NEW YORK FIGURES IN SENSATIONAL EXPLOSION.

Fire following a series of unexplained explosions destroyed the six-story building of the Jarvis Warehouse Company near the Erie railroad terminal in Jersey City late Tuesday afternoon and badly damaged the Erie repair shops. The material damage was estimated by the Jersey City police and fire officials at close to \$1,500,000. The goods stored in the warehouse, said to have included a quantity of chemicals, were a total loss.

The cause of the explosion has not yet been determined, although a rigid investigation was begun at once by the Federal, State and city authorities.
